Just simply „build“ your own stroller....

SIBLINGS or TWINS coming ??..... no problem....

double ride

All the strollers and Travel system components with the "clip-A-go" unique interface are on purpose designed to enable the user to change the stroller configuration for the new purpose very flexibly, quickly and economically. e.g.: In case you use any PATRON stroller in Travel set configuration, all what you need is to buy only new DELTA-4T (tandem) chassis, to be able to use the set as siblings stroller. All the other components, baby car seats and accessories you may use just simply further.

FALCO TANDEM

Excellent „lift-fit“ width of 63,5cm and „lift-fit“ length of 125cm only!

Product offers highly practical possibility to use it both for siblings (2-seater) and later as well as only for one child (single-seater), without limitation of children and parents comfort.

FALCO Tandem – travel system **for siblings** with unique **SPEX-function**. Travel set offers excellent comfort for both children using well approved PATRON components – spacious luxury carrycot **AMIGO**, fully adjustable ergonomic **ERGO** seat unit (including canopy and summer foot-muff) and baby car seat **MIMMO Plus**. Stroller’s base is lightweight aluminium tandem chassis **DELTA 4T**. Chassis is equipped with „clip-A-go“ modular interface, suspension, front 9“ solid swivel and rear 12” pneumatic wheels. Due to the **SPEX-function** and chassis arrangement FALCO Tandem stroller offers great ratio of driving properties (inside and outside of the town) and excellent accessibility (traveling, shopping, etc.) while keeping great comfort for both children. Product is suitable for siblings from newborn age.

SPEX-function:

Unique “space-extending” function, allows parent to adjust optimal spacing and positioning in between both children according to actual situation (outdoor , in public transport, in the lift, ...). Compact position – enables „lift-fit” length of 125cm only. Set-off position – enables to create large comfort space for both children.

unique SPEX-function

FALCO TWIN

clip-go

Great flexibility,
easy manipulation

FALCO Twin – travel system **for twins** with unique **SPEX-function**. This product represents comfortable solution for twins, that enables to combine well approved PATRON components in different set-up: 2 units of spacious luxury **AMIGO** carrycots; 2 units of fully adjustable ergonomic **ERGO** seat units (including canopies and summer foot-muffs); 2 units of **MIMMO Plus** baby car seats. Stroller’s base is the lightweight aluminium tandem chassis **DELTA 4T**. Chassis is equipped with „clip-A-go” modular interface, suspension, front 9“ solid swivel and rear 12” pneumatic wheels. Due to the **SPEX-function** and chassis arrangement FALCO Twin stroller offers great ratio of driving properties (inside and outside of the town) and excellent accessibility (traveling, shopping, etc.) while keeping great comfort for both children. Product is suitable for twins from newborn age.
