collection 2015 | EN

Company PATRON is ISO 9001:2008 certified.  
 PATRON products fulfils all appropriate hygienic and safety EC-standards and regulations: EN 1888, EN 1466, EN 12227, EN 14988, EN 1130, etc.  
 Used materials fulfil high hygienic and technical requirements and ensure the top level of quality.

# Quality guarantee

ISO 9001:2008

CERTIFICATE NO. 25247/A/0001/Cz

## edgeFlow

Ultra-modern state of the art design concept of angulated and rounded shapes harmony.

## clip-A-go

Universal modular interface between chassis and particular travel system components with user friendly easy manipulation and high measure of passive safety.

## ALUX

(Aluminium Extreme Space Frame)

High-tech production method of lightweight undercarriage, which takes advantage of an aluminium alloy and a titan joint hardener (TIGW) combination.

## SPEX

(Space Extender)

Unique "space-extending" function, allows user to adjust optimal spacing and positioning in between components (carycots, seat units, car seats) of strollers for siblings and twins.

## PENTEX

(Penta-textile Quality Composition)

Technological and material composition of upholstery manufacturing, that ensures high quality standards, extended resistance, bio-compatibility, above the average safety and comfort. Upholstery consists of 5 material layers of different characteristics:

- A) **TOP COVER** (external layer) – ensures weather & wind proofness, colour stability, abrasion resistance and easy maintenance.
- B) **TOP FILLER** (outer filler) – thorough thermo-isolation attribute.
- C) **BASE PANEL** (carry base) – reinforced design carrier.
- D) **STUFFING** (inner filler) – breathable material with climate-control function.
- E) **INNER COAT** (internal layer) – pure cotton with fine structure, meets high hygienic criteria.

# Just simply build your own stroller!

Simply download web CONFIGURATOR and "assemble" your own stroller. Start with the selection of chassis - 15 basic versions for different conditions (street conditions, outdoor country, home or car access limitations, etc...). Then follow instruction to select components - more than 40 basic versions of carrycots, seat units and car seats (to achieve best care and comfort for your child). Finally you may add on practical original accessories. Additionally, through genuine "clip-A-go" components interface system you can easily and quickly change stroller function (carrycot, seat or car seat carrier). Or just buy the second chassis and gain even more great options! Simply transform your stroller from "luxury city pram" into the "off-road winter stroller". Or just keep second chassis for other activities, such a summer-house vacation, grand parents house stay, babysitter duties, etc.

LAMBDA-4R chassis. Large front swivel wheels, compact folding, excellent handling.

AMIGO carrycot. Extra large baby carrier, very light weight, comfort features.

ERGO seat unit. ergonomical backrest contour, extended side protection.

MIMMO PLUS baby car seat, light and compact design, fully equipped.

DELTA 4 chassis. Large four pneumatic wheels, excellent stability, suitable for outdoor activity.

Mamadbag STYLE Plus. Suitable for LAMBDA, DELTA and TYPO chassis.

# FALCO Tandem

Excellent „lift-fit“ width of 63,5cm and „lift-fit“ length of 125cm only!

Product offers highly practical possibility to use it both for siblings (2-seater) and later as well as only for one child (single-seater), without limitation of children and parents comfort.

FALCO Tandem – travel system **for siblings** with unique **SPEX-function**. Travel set offers excellent comfort for both children using well approved PATRON components – spacious luxury carrycot **AMIGO**, fully adjustable ergonomic **ERGO** seat unit (including canopy and summer foot-muff) and baby car seat **MIMMO Plus**. Stroller's base is lightweight aluminium tandem chassis **DELTA 4T**. Chassis is equipped with „clip-A-go“ modular interface, suspension, front 9" solid swivel and rear 12" pneumatic wheels. Due to the **SPEX-function** and chassis arrangement FALCO Tandem stroller offers great ratio of driving properties (inside and outside of the town) and excellent accessibility (traveling, shopping, etc. ) while keeping great comfort for both children. Product is suitable for siblings from newborn age.

## SPEX-function:

Unique “space-extending” function, allows parent to adjust optimal spacing and positioning in between both children according to actual situation (outdoor , in public transport, in the lift, ...). Compact position – enables „lift-fit” length of 125cm only. Set-off position – enables to create large comfort space for both children.

unique SPEX-function

# FALCO Twin

## clip-go

Great flexibility,  
easy manipulation

FALCO Twin – travel system **for twins** with unique **SPEX-function**. This product represents comfortable solution for twins, that enables to combine well approved PATRON components in different set-up: 2 units of spacious luxury **AMIGO** carrycots; 2 units of fully adjustable ergonomic **ERGO** seat units (including canopies and summer foot-muffs); 2 units of **MIMMO Plus** baby car seats. Stroller's base is the lightweight aluminium tandem chassis **DELTA 4T**. Chassis is equipped with „clip-A-go” modular interface, suspension, front 9” solid swivel and rear 12” pneumatic wheels. Due to the **SPEX-function** and chassis arrangement FALCO Twin stroller offers great ratio of driving properties (inside and outside of the town) and excellent accessibility (traveling, shopping, etc.) while keeping great comfort for both children. Product is suitable for twins from newborn age.
